

COMPANY PROFILE
2007

[NI-Limits](#) manage a conglomeration of organisations and businesses that significantly contribute to the culture of Malaysia by operating with control of a vast network of web-centric systems and internet-enabled communities. Working together to usher-in a new era in digital design and web management, the core-culture of our company is predicated by the foundation of our team and their personal and ethical growth.

Originally founded as [Pixel Media](#) in 1997 by a close group of multimedia enthusiast friends that were passing through Malaysia on a visit, we have now been in business together for over 10 years, and since then, we have not only renamed, restructured and reinvested our interests, but have also acquired several other IT organisations.

Bringing over a century of experience between our project leaders and managers, along with a wealth of multi-cultural exposure, our globally renowned team of professional individuals each possess dynamic key-skills enabling us to manage over 1,000 websites. We expect to control over 5,000 Malaysian based websites by the end of the third quarter of 2010, with an ultimate goal of managing 20,020 Malaysian websites by [Wawasan 2020](#).

Our company motto is that, **It's our business to help your business**, something that we are able to achieve with direct implementation of Web 2.0 Technologies. This allows us to deliver Business Intelligent customer-driven Rich Internet Applications by providing a range of services from template-based cost effective online solutions to unique customised designs that draw upon a balanced combination of OpenSource and Commercial development platforms.

Working in synergistic partnership with a broad spectrum of companies ranging from personal web-logs (blogs) to Enterprise Level Business Critical Systems for larger corporations, our expertise lies in an uncompromising extraordinary approach to ongoing serviced-support and personalised human-interaction.

Our greatest product is our determined responsibility to help our clients.

From web-hosting full server systems and domain name registration, we understand the technologies that drive the internet world. We also house a dedicated team of digital design artists providing logo conceptualisation, typographical manipulation and advanced photo-editing, along with several dynamic web-designers and digital-broadcasting specialists.

As [Registered Partners](#) with Microsoft seeking Gold accreditation, we are privy to upcoming pre-releases of all upcoming systems, priority patches and security upgrades. This allows us to guarantee business standards compliant to both the localised and international guidelines, in turn enabling us to further educate Malaysian based businesses. In light of this, the Malaysian Super Corridor ([MSC](#)) Status is also an important partnership that we continue to work towards, for its strict eco-friendly guidelines and commitment to Malaysia are consistent with our existing principles.

The Board of Directors and its active Shareholders guide the development of our company whilst conducting a friendly open-door policy throughout every division of our company. With long-term vested interests in their communities and the continued growth of Malaysia, they generously contribute towards charitable activities and the management of several non-profit organisations dedicated to the online culture and community of Kuala Lumpur.

In the process of establishing ourselves as the leading web development agency in Malaysia, we have also created several sub-divisions of our company that provides very specific services dedicated to their respective niche markets and demographic reach.

- **Gridsites.net** (affordable web 2.0 hosting)
- **TheHostingCom.com** (professional hosting made simple)
- **IFAMail.com** (microsoft exchange hosting)
- **Modiplates.net** (flash-based professional template management)
- **TheBlogCom.com** (professional blog management)
- **DynaCyph.com** (independent financial advisor web applications)
- **TeleCyph.com** (digital secretarial services)
- **KLews.net** (premium KL web-content and international Malaysian web-port)
- **TheWebsiteCom.com** (instantaneous internet presence & domain management)
- **AdSpaceRentals.com** (Malaysian internet advertising agency)

Gridsites

A gridsite can be online in an hour and comes fully equipped with at least a full gigabyte of storage space and a minimum of 10 gigabytes of monthly bandwidth, as well as full POP3 AJAX based WebMail 2.0 and a customisable website controlled with online CMS through Wordpress blogs, all for as low as RM 99 a year.

Utilising the very latest grid-served technologies that are presently unavailable anywhere else within the Asian marketplace, these hosting 2.0 environments guarantee a 100% uptime and provide the most competitive (guaranteed) hosting costs Malaysia has ever seen.

TheHostingCom

For fully-featured and completely configurable hosting, with hands-on 24/7/ 365 days a year support provided with a friendly and down-to-earth human approach, TheHostingCom offers an extremely vast selection of packages ranging from corporate multi-domain hosting to Microsoft SQL enterprise solutions, and full physical servers or customised Exchange accounts.

All of our hosting packages include full Plesk control and can be served on professional Windows based operating systems or high powered optimised Linux systems providing full root access and a whole host of unlimited privileges served by internationally recognised data storage facilities. We have also extended our servers to include an extensive series of Zimbra OpenSource Collaborative Suites, in turn providing Malaysian businesses with extremely competitive corporate alternatives to Microsoft Exchange.

IFAMail

Specialising in Microsoft Exchange Server Hosting and other Microsoft Products and support, such as Windows Vista training and Office 2007 integration and preparation, IFAMail works in extremely close certified partnership with Microsoft, ensuring the very latest and most comprehensive understanding of Microsoft products and legitimate licensing agreements are provided to Malaysian businesses and other I.T. professionals.

As established registered partners with Microsoft, staffed by a team of specialised MCPs (Microsoft Certified Professionals), we are privy to each and every update and application that Microsoft releases, which in turn ensures that our client recommendations and ongoing support is always up-to-date and inline with the latest technologies and trends.

TheBlogCom

Blogs have become the fastest growing marketing and networking tool in the history of commercialism and social-networking by allowing for untold integration and ease. Since the advent of Wordpress as an open-source platform allowing developers to create millions of plug-ins, extensions and widgets, these systems are here to stay.

Their one weakness is their popularity, and as such, it becomes impossible for the average individual to keep track of blogging trends and technology, not to mention filling the thing with enough relevant information to keep people coming back. That is were TheBlogCom steps in. We are a professional blog management company dedicated to the inner-workings of the marketing world by providing affordable yet uniquely customized solutions tailor made and continually supported, allowing us to help you to maintain your own successful blog.

Modiplates

By providing flash-based and web 2.0 enabled CSS / AJAX driven web templates customised specifically for each new client, along with integrating other online services and tools from CMS management and WYSIWYG editing functionality to email marketing campaign management and other powerful widgetry, Modiplates brings an affordable high impact professional web presence to local Malaysian businesses.

DynaCyph

Providing subscribed online marketing and support services to IFAs (International Financial Advisors) and other financial institutions, DynaCyph has a series of networked solutions ranging from simple automated newsletter delivery systems to interactive fund review suites. Powered by online portals containing CRM services and other financial marketing tools, along with affiliated partnership with Standard & Poors, our flagship product – DynaNEWS is a must have for any financial advisor dealing with offshore savings and retirement plans.

TeleCyph

From cold-called appointments and digital secretarial services to online virtual office space and Microsoft Exchange hosting management, TeleCyph enables small businesses and self-employed or start-up visionaries to have a dedicated professional team behind them, without having to worry about establishing office resources.

TheNameCom

For those looking for an instantaneous internet presence, TheNameCom facilitates this need by providing domain-name-starter-kits, which not only include a premium domain name complete with brand name protection, but also includes a complete website with full online CMS, as well as a selection of logos, typefaces, and other essential business start-up tools.

TheNameCom is essentially an online market-place for websites ready to be sold as is.
